HINTS FOR THE WARM SEASON.

THIS wonderful compound combines MEDICAL POWERS over all other preparations ever formed for the relief of those diseases for which it is recommended, such as Headache, Dizziness, Sleepiness Noises in the Head, Bad Taste in the Mouth Nausea or sickness in the Stomach, Loss of Appetite, Indigestion, Dyspepsia, Fever and Ague, Pain after Eating, Sour Stomach, Heartburn, Jaundice, Costiveness, Determination of Blood to the Head Piles, Coughs, Colds, pain in the side, back limbs and joints, Rheumatism, all Chronic Diseases, Scrofulous Humors, Salt rheum and all Cutaneous Eruptions of the Skin, General Debility, &c

The DANDELION AND TOMATO PANACEA is particularly recommended in cases of Indigestion and Dyspepsia The following are some of its distressing symptoms Palpitation of the heart, heartburn, loss of appetite, pain after eating, languor, melancholy, restlessness, &c It will cure the worst diseases of

RHEUMATISM,

and will eradicate mercury from the system infinitely faster and better than the common Sassaparilla preparation. The *Dandelion and Tomato Panacea* is, as all must be aware, from the ingredients of which it is compounded, the best as well as the safest

MORE PROOFS! "The cry is still, they come!"

EVERY mail brings tidings of their success — From East to the remotest West—from Canada on the North to Mexico and the West Indies on the South—all are unanimous in their praise — Of a medicine so universally known and esteemed as

WRIGHT'S INDIAN VEGETABLE PILLS,

it is hardly necessary to speak in detail At no period in its history has the reputation of this medicine stood higher, and we may say that no reputation is likely to be more enduring Adapted to all constitutions to every form of disease, and to all climates Wright's Indian Vegetable Pills are above every other medicine, fitted for the use of man under whatever circumstances he may be placed At sea or on land, at home or abroad, in summer's heat and winter's cold, with a common regard to the conditions of health and with Wright's Indian Vegetable Pills at hand, there is no excuse for being sick unless the constitution be utterly irreclaimable

As our object is to state where the genuine medicine can be obtained, rather than to give it an extended notice, which our limits forbid, we shall merely subjoin one or two of the numerous testimonials that have just come to hand Hundreds of the same kind might be added, but we are sure the public will save us the trouble of arranging them

[Extract of a letter from Hernando, Mississippi

'To W Wright—Your Pills have given universal satisfaction and are justly very popular I can sell from 30 to 40 dozen annually if I could be supplied Yours, WM HENRY JOHNSON, Agent"

It ought here to be remarked that the medicine has been but recently introduced into Mississippi

SPECIAL NOTICE.

In consequence of the passage of an act by the recent Legislature of Maine, unjustly requiring the publication of the recipes of all proprietary medicines, after the first of January next, the public would do well to PURCHASE IMMEDIATELY AN AMPLE SUPPLY of the above celebrated medicine as it MAY NOT BE LONG that the opportunity will be afforded in the State of Maine — The sinister intentions of designing men will thus for a time be defeated The medicine if kept dry, will be good for years That act we pronounce most *unjust*, because it requires a valuable secret to be put into the hands of one a *professional enemies* This no one will do, and thus the poor man will be compelled to pay for the visits of a doctor, instead of doctoring himself, as he now does at a small expense

NOW TO THE TESTIMONY.

PREJUDICE however deep rooted and long standing must yield to simple, ungarnished statements of fact, like the following —Captain Thompson is well known in this city and in many parts of this State and his statements are highly important Read them

BANGOR, May 18 1846

I have been very severely afflicted with a distressing cough, attended with asthma I for thirty years especially during the winter season for some eight or ten years past I have expended a large amount of money in endeavoring to regain my health and have tried nearly all the preparations of the day with little or no benefit During the force part of last winter I was much worse than usual—very much worn down with my cough and emaciated so that I was unable to attend to business I felt discouraged and began to conclude with my friends that my case was a hopeless one Whilst in this situation a friend called to see me and advised me to send and purchase a bottle of Hunter's Pulmonary Balsam, and a box of the Indian Dyspepsia Pills prepared by CURTIS & CO of this city, saying he had made use of them in a case very similar and had been cured I had little or no confidence in any patent medicines, having tried many and found no relief, and objected sending for them for some time At the earnest solicitation of several who declared they had found relief from them, I purchased a bottle of the Balsam and a box of the Pills Very soon after I commenced using them, was relieved from the distress at my lungs my cough became loose and I raised easy Soon after my cough began to disappear and in less than a month it was perfectly well My lungs now appear perfectly well, and have been so for months I believe the Balsam and Pills SAVED MY LIFE I have made use of it since for my children in cases of colds and coughs, and it has universally given them immediate relief and cured the cough I do most cheerfully recommend it to the public, believing it the *best article in the world* for all lung complaints, asthma, &c JOHN THOMPSON

The Balsam and Pills are sold wholesale and retail by CURTIS & PERKINS No 4 Strickland's Block West End Kenduskeag Bridge, Bangor Also, by D BUGBEE, and Druggists generally in this city 3m june 20

FAMILY MEDICINE

The proprietor has proved for the seven years his Pills have been before the public more than

FIVE THOUSAND

Certificates of cures performed by them a great proportion of them from Physicians Clergymen first respectable in practice, who have themselves prescribed and administered the remedy after being discouraged and perplexed by the use of the many nostrums of shops Many of them are singular and anomalous cases, and all of them obstinate and severe, having withstood the effects of a variety of remedies for a long time The columns of a newspaper will not allow a statement of cases and full particulars may be had of the Agents containing the particulars of some of the cures suffice it here to say that they are not made up cases nor fictitious names manufactured for the occasion, but from persons known for respectability and integrity and have voluntarily given their testimony for the benefit of the public Among the cures are several obstinate cases of DYSPEPSIA

Justice Bloodgood of New York city, Rev W Avery Esq of the same place Rev H Cornelius, Conn John L Fish, Esq of Rochester N Y have been cured by these Pills

Blackwood's Edinburgh Magazine

—o—

THE above Periodicals are reprinted in New-York immediately on their arrival by the British steamers in a beautiful clear type on fine white paper, and a faithful reprint of the original — BLACKWOOD'S MAGAZINE being an exact fac-simile of the Edinburgh Edition

The work period time of these splendid Periodicals renders it needless to say much in their praise As literary works, they stand in the first rank of any thing of a similar character published while the political complexion of each is marked by a dignity and ability which cannot not often found in works of a partizan character

They embrace the views of the three great parties in England—Whig, Tory and Radical—Blackwood and the London Quarterly are Tory, the Edinburgh Review Whig and the Westminster, Radical The Foreign Quarterly is purely literary being devoted exclusively to critical and political Continental Works

The prices of the Re PRINT are less than one fourth those of the foreign copies while they are equally well printed, thus placing the Reader in this country on a footing with the English reader

MONDAY, NOVEMBER 16, 1846.

☞ The Foreign correspondent of the Boston Traveller states that "Garrison, Wright, Douglass and their adherents, have not ceased their warfare against the 'Evangelical Alliance.' A meeting was recently held at Manchester by these firebrand lecturers, at which they denounced the proceedings of the Alliance in strong terms. It was stated that the proceedings of the Alliance were 'clearly calculated to corrupt the minds of the British public on the question of slavery. Wright denounced the Methodists Society in America as 'a band of pickpockets, hypocrites and thieves'; Douglass stated that he had formerly been the property of a Methodist preacher, who treated him with so much Christian kindness, that he took the first chance of his leniency to escape! Finally, it was moved that the meeting should express its abhorrence of the persons from the United States composing the Alliance. The motion was unanimously carried."

☞ Of one fact the loco papers in this State are sure, which is, that on account of the short crops in Europe there is a pressing demand for breadstuff. Out of this single fact with which the legislation of no government on earth had anything to do, these loco papers are spinning all sorts of free trade theories, and claiming it as a triumph of locoloco legislation in destroying the protective tariff and adopting one approaching to Free Trade.

This potatoe rot argument, a mere accidental and Providential matter, is written upon and argued about, as though of itself it overthrew all the reasons and arguments of the Whigs in favor of a protective tariff. We certainly do not hesitate to judge men basely corrupt, who will thus undertake to deceive the community who rely upon them for information.

☞ The Gazette of Saturday says its say concerning the two lectures of Mr Whipple before the Bangor Lyceum, but it could not get through with the matter without a growl at its contemporaries. The editor of the Gazette has a right to please himself in his own columns if he can, but we beg of him not to consider himself in any manner responsible for the conduct of his contemporaries. As to reporting lectures, no press in Bangor has attempted it to our knowledge. We gave a brief sketch of the lecture of Mr Sumner, and those of Mr Whipple. We did this mainly for those of our readers who did not hear the lectures. We know that these sketches afforded many such, much satisfaction. The sketches were imperfect, but faulty as they were, we believe them better calculated to interest our readers, common-sense-every-day-like people, as they are, and give them a better insight into the subject of the lectures than such sayings as the following from the Gazette, in speaking of Mr Whipple's lectures.

"His Lecture on the "Ludicrous side of Life," abounded in genuine and dignified humor—not dignified in the abhorrent sense of dignity he so forcibly expose, but in the true sense of that term. No one can leave such a lecture with any tendency to the blues, or any other touch of morbid sensibility, if even the Thersitean shafts have found an exposed side, or the Rabelaisian missile took almo mentary hold on some delicate organism.

The lecture on the relations of authors to men, things, and women—pardon our letting down the title—was a higher effort, and if less amusing, evolved a higher power. The eulogy on Milton, the half pantheonization of Dante, Schiller, Wordsworth, and Shelly, were exquisite touches, and the apostrophization of books in his peroration, though running so nearly in the line of Cicero and Tupper, was a noble effort."

☞ We are informed that a gang of rowdy youngsters have, the last week, taken it upon themselves to insult several highly respectable females, in our streets. These rascals deserve to have their heads broken, and they stand a chance of having it done effectually. It is an exceedingly mean thing for a man to insult and frighten a virtuous and worthy female, who is compelled to walk our streets in the evening. It would be easy to form a special police among our citizens to crack the heads of such villians upon the spot, in their villainy, and thus effectually teach them a wholesome lesson.

☞ The Gardiner Mechanics' Association have published a card of thanks to Hon Luther Severance for furnishing them with public Documents during the late session of Congress.

The representatives from this Congressional District, have, for many years, furnished the Mechanics Association in this city with a full set of Documents and thereby have conferred an essential benefit. Senator Evans has also been very attentive to the Association in this respect.

☞ An accident occurred on board the ship Wyoming on her passage to Liverpool, by taking a lee lurch, and breaking her mast, by which a dozen men were thrown from the main yard as though they had been shot. Five fell into the sea and were drowned, and of those which fell on deck six were disabled by broken bones and other injuries from labor. But ten effective men were left to work the ship.

☞ We are expecting a letter, by and by, from Pete Wiggin, about affairs at Salt River. He has sent us word that affairs there are in an orful plight, as the new comers there, recently, have become so numerous that all principle is crowded out, and that there must be some sort of annexation to that region in order to get along any way.

☞ We would direct the attention of all lovers of music to the advertisement of M O Bishels, of Boston, to be found in our columns.

☞ The price of flour in Boston and New York, has got back again to the mark it was on previous to the arrival of the Steamship.

☞ Since the gale in Havanna, the price of all parts of building materials has greatly advanced.

☞ Hon Luther Severance has united himself with the Sons of Temperance in Augusta.

☞ Mr Claffer, of Maine, recently appointed Attorney General of the United States by Mr Polk, is spoken of as one of our exchange papers to the "Hon. Paul Clifford." The pretensions to be quite competent of any one to the matter; but what a quiet nuisance!

The Fall of Monterey.

Various accounts have been given of the stirring incidents of this eventful affair, and, in one shape and another, since the city of Monterey fell into the hands of General Taylor, we have laid before our readers voluminous details and anecdotes connected with the siege. Among the correspondents of the public press, whose communications from the Army have, during the whole campaign, proved most abundant in interesting detail, the 'G" de L"' of the N Y 'Spirit of the Times has stood conspicuous.

It may be supposed that a letter, in the journal form, despatched from Monterey, by the Captain, who, at the close of the siege, was the only surviving officer of the Third Infantry, so terribly cut up, in the assault until its numbers were reduced to some seventy men,—would be full of interest. The last 'Spirit' contains such a letter from the correspondent whose *nom de plume* we have given, but who, in reality, is no more than Capt Henry of the Third Infantry, the only surviving officer of that devoted Regiment. We make a few extracts from the letter alluded to.

After giving the incidents of the march on Monterey, from September the 17th, (Thursday) up to Sunday the 20th, inclusive, Capt Henry comes to the eventful Monday, Tuesday and Wednesday,—the 21st, 22d and 23d,—the days in the glory, of which he and his regiment had so great a share.—N Y Express.

As we approached, the battery upon the left opened upon us. The first shot that was fired struck immediately in front of the line and reached over it. An infilading and cross fire was opened upon us from the Citadel. The first ball carried off the leg of Lieut Dillworth of the 1st Infantry, wounding some of the men. The line steadily advanced, regardless of all fire.—Important work was to be performed, and we had made up our minds to carry everything before us at the point of the bayonet. For five hundred yards we advanced under fire of the two batteries. We dashed into the streets. Little did we know what was in store for us. After passing through one street, turning to the right at the angle of the next cross street, we came suddenly upon a battery which opened its deadly fire upon us. From all its embrazures, from every house, from every yard, showers of balls were hailed upon us. Being in utter ignorance of our locality, we had to stand and take it. Our men covering themselves as best they might, cheered on by their officers, dealt death and destruction on every side, but there was no resisting the deadly concealed fire, on every side we were cut down. It was one incessant whizzing of balls.

Brevet Maj Barbour was the first officers I saw shot down, he fell cheering his men. He was killed by an escopet ball, passing from his shoulder through to his heart. He never spoke, his most intimate friend standing by his side, never received a kind lookone—'God bless you' but his spirit in the twinkling of lightning winged its way to his Maker. We were forced to retire in the next street, under cover of walls and houses. Into this street the body of Maj Barbour was carried. Here was death, destruction, and fierce fighting. Capt Williams of the Topographical Corps, lay on one side of the street wounded. The gallant Major Mansfield, wounded in the leg, still pressing on with unabated ardor, cheering the men and pointing out places of attack.—Here was the gallant Col Watson of the Baltimore Regiment, wounded. Some of his men were persuading him to retire from the shower of balls which played around him. Never shall I forget his animated expression of countenance, when, in taking a drink from the canteen of one his men he exclaimed—'never, boys! Never will I yield an inch! I have too much Irish blood in me to give up!' A few moments after this exclamation he was a corpse.

Lieut Bragg's battery arrived about this time. He reached the streets, but it was impossible for him to do anything. Fourteen of his horses were shot and many of his men either killed or severely wounded. Finding the struggle at this point useless, we were ordered to fall back in order. In retiring we were exposed to a galling fire from the Citadel. A ball took a man's head off and threw it and part of his gun high in the air! Of course the Division was very much scattered in the street fight, and the loss appeared very great.

In the meantime, the Brigade, under the command of Gen Quitman, (the Mississippi and Tennessee Regiments,) were sent up to support us, and carried the work which had first opened its fire upon the left. The engagement that had previously taken place, being in the rear of the work, materially affected the resistance which was offered. Gen Hamer's Brigade came up to the support also. The Kentucky Legion were left to guard the mortar. The Volunteers behaved remarkably well, and did themselves great credit.

The work that was taken mounted five guns—one 12 pounder, one 9, two 6s, and one howitzer. The first Division was then ordered to make for the captured work, to support Ridgley's Battery, which was ordered into the city. During all this time, the mortar and 24 lb howitzers were playing upon the town. Of course, we were not informed of the effects. One of the howitzers had been taken to the captured work and was firing into the town and a redoubt directly back of the one captured.

The 3d, 4th, and 1st Infantry were then ordered into the town to storm a work supposed to be not many streets off. The moment we left the cover of the work, we were exposed to a galling fire of musketry escopets, and artillery. We pushed steadily along taking advantage of every shelter to approach the work. Crossing one street we were exposed in full to the embrazures of an hitherto unknown battery, and the men were knocked over right and left as they crossed. We advanced through several gardens, and crossed several streets, and at last worked our way into a spot which afforded slight shelter, and from which we opened a fire of musketry upon a fortified house strongly manned by musketry, mounting one gun. This was nearly silenced, and would have been stormed, had we not discovered that the street through which we would have had to pass was raked by another battery, from which howitzer, shell, and grape were constantly thrown. In fact, every street seemed to be blockaded and every house a fortification, and from every point of which our gallant officers and men were shot down.

It was at this point, and by an escopet ball, that Capt L N Morris, bravely leading his Regiment, received a mortal wound. The shot passing through his body, killing him immediately. Going into action with five seniors, at this critical juncture the command of the 3d Regiment of Infantry devolved upon Capt W S Henry, Capt Bainbridge, of the 3d infantry, had been wounded in the hot fire after leaving the captured battery. A few minutes after Capt Morris fell, Lieut Hazlett, of the 3d received his death wound.

Here it was that the undaunted courage and bravery of the American soldiers presented itself. Although exposed to a deadly fire, they would advance by file and wait coolly until a Mexican's head appeared above the breastworks and then deliberately take aim and fire,—retire, load, and again return to the spot where the balls were flying thick and fast. It was cheering to see them, under such a fire, exhibiting such undaunted bravery. At one time many of the Mexicans appeared to be running from one work to another, and then our men poured in a deadly fire. The enemy being strongly reinforced, our cartridges nearly expended, and exposed to a fire from every direction, the Division was ordered to retire. This was done coolly and calmly, under—if possible—an increased fire. On arriving near the captured battery, the Division were forced to lie down for the road, under cover of a very small embankment of an irrigating ditch, for half an hour, exposed to an incessant fire of bullets, ball and shells, until ordered to take position under cover of the captured work.

The 1st, 3d and 4th Regiments were under fire from early in the morning until sunset.—The Volunteers were all withdrawn, who had been in the action, and sent to camp, and the Kentucky Legion took their place, and with the 1st, 3d and 4th Infantry, kept possession of the captured work. Two works may be said to have been captured—a large distillery, which had been strongly manned with musketry, was one of them.

Just before dark an express arrived from Gen Worth stating that he had carried two heights and that he would storm the commanding one to morrow at day-break. When the news was announced we made the air ring with cheers!—Every eye was anxiously fixed upon General Worth's movements—knowing that the rapid fall of Monterey depended upon his success.—So good a beginning we felt assured would make a good ending. The 31 Infantry with two companies of the Kentucky Legion, were ordered to occupy the battery, and the balance the Distillery and the adjoining houses. The night set in cold, and to complete our misery, it rained all night. There the poor fellows lay after fighting all day, in mud, without a blanket to cover them, and some in their shirt sleeves. I don't think I ever passed a more disagreeable night.

Tuesday, Sept 22—At day break all the men were forced to lay flat down in the mud, the rain still pouring down. No one could raise his head without drawing a fire upon us. Just at the grey dawn of day I witnessed Worth's storming of the heights which commanded the Bishop's Palace. The first intimation we had of it was the discharge of musketry, near the top of the hill. Each flash looked like an electric spark! The flashes and the white smoke ascended the hillside as steadily as if worked by machinery! The dark space between the apex of the height and the curling smoke of the musketry became less and less, until the whole became enveloped in smoke, and we knew that the gallant Worth had carried it. It was a glorious sight, and quite warmed up our cold and chilled bodies!

Firing commenced on us as soon as the day cleverly dawned. They threw many shells from the city, none of which burst in the work although they fell all around us. Lieut Scott of the Engineers was busily employed putting this work and the Distillery in a state of defence. Capt Bainbridge assumed command of the 3d Infantry on the morning.—The 1st, 3d, and 4th Infantry, and the Kentucky Legion were relieved by a command under Gen Quitman, of Col Davis's Mississippi Regiment. In returning to camp, we were exposed to a cross and infilading fire from the enemy's artillery, which was dreadful to pass through.—The Captain of the 4th was cut in two, and one man wounded. We had to scatter along to prevent being fired on in a body. The Division was very glad to return to camp, for we were nigh a-tired, for they were pretty well fagged out. We had hardly reached our tents before an express arrived stating that Gen Worth had carried the castle, and another, from God knows what quarter, that the enemy were crossing to meet us in the plain! We were again immediately under arms, and marched out, no enemy appearing we returned. Just before sunset the Regiment followed to the grave the remains of the lamented Capt Morris.

Wednesday, Sept 23d—Gen Worth commenced firing upon the town about 7 o'clock. A report was circulated that the enemy were attempting to escape. The whole command was under arms and was marched just without reach of the enemy's guns. So many strong points having been taken, we were momentarily in expectation of their capitulation. It was cheering to see Worth pouring into them, and that with their own pieces and ammunition!—During the night he had sent the 5th Infantry, under the command of Capt Martin Scott, with a 9 pound piece to occupy the heights directly back of the city. That opened upon them at the same time. The rapid discharge of small arms at the eastern extremity of the city, gave notice that the engagement had commenced again. The Texan mounted men (Col Wood's Regiment) had dismounted, and with the Mississippians, under Col Davis were at it. The Mississippians at day break took the battery that had been pouring it into us on the 21st and 22d. Very little resistance was offered. They had nearly deserted it during the night and had taken off their guns. They had driven the enemy before them from house to house—their rifles picking them off whenever a Mexican's body or head presented itself.

Bragg's battery was ordered into the city, and the 3d Infantry were directed to support it.—When we got within range of the guns of the citadel, the battery crossed the field of fire at full gallop, not one was injured. The 3d took a more circuitous route and arrived under cover. When we arrived the city had been emptied of the enemy until nearly opposite the Cathedral (Gen Quitman, Gen Henderson, Gen Lamar, Col Wood and Col Davis all displayed distinguished gallantry. Several of their men were wounded, and some few killed.) Bragg's battery and the 3d Infantry, under Capt Bainbridge dashed in among them, and there we had it nearly all day. The firing was very severe, but nothing compared to that on the 21st, except at one street. There the fire from the tops of the houses was terrible.

Passing across the street, you went through a *shower of bullets*! At this corner one of Bragg's pieces was stationed, playing up the street. It did very little good, as the weight of metal was entirely too light. I look upon the exposure of the field artillery in the streets as perfectly useless—a sacrifice of life without a corresponding return. Sergt Weightman [Bragg's first Sergt] worked his piece like a hero. The Mexicans, whenever the piece was pointed at them, would fall behind their breast works, and at that time we could cross with some safety as soon as it was fired a shower of their balls followed it. Our men crossed in squads—"*Go it my boys!*" and away they would start the others would wait until the enemy had foolishly expended a hundred shots, and then another party would cross. Bragg's Sergeant was shot at his gun, exhibiting to the last distinguished gallantry. Gen Taylor was in town with his Staff on foot, walking about perfectly regardless of danger. He was very imprudent in the exposure of his person. He passed over this cross street, in which there was such a terrible fire, in a walk, and by all chances should have been shot. I ran over to him with one or two of my men.

Previous to this, the house on the opposite corner had been broken open. It turned out to be a kind of grocery store. In it the men found a lot of Mexican bread and other edibles, and you may depend upon it they took advantage of it. Bursting through another door, we came upon four or five quite genteel looking women with some children and one or two men. They were on their knees, crucifix in hand, begging for mercy. As soon as they saw me the cry was "Captiano! Captiano!" I reassured them by taking a shake of the hand all round, and by the expression of my countenance, that they were in no danger. They appeared very grateful to think their throats were not to be cut!—Although we are fiercely fighting in taking this city, and the blood of our officers and men has flown in rivers, yet no one act of unkindness, even have I heard reported, as having been committed by either Regular or Volunteer.—How gratifying! what a compliment to the nation! They gave our men plenty of water, and told them to take what they wanted to eat.

The house on the corner where Gen Taylor was, turned out to be an Apothecary's. When we commenced battering down the door, the gentleman signified, by putting the key in and unlocking it, that if we had no objections he would save us the trouble. It was really a well supplied quite city-like looking affair. The Doctor, Dr San Juan—(there are more St John's in this country than stones)—was a very respectable looking *Esculapius*, and offered us some delicious looking ripe lemons, and water—I took some of the former) and found them very grateful. One of the men made himself 'Governor Ambassador,' and told me he was "first rate," and offered me to take some.—

[Then followed the capitulation, and the evacuation, the hoisting of the American flag, after the army had marched in "to the tune of Yankee Doodle." We add one or two descriptive passages from Capt Henry's Journal,—relating particularly to Gen. Worth.]

I rode immediately to the Plaza in which Gen Worth's Division are comfortably quartered. The streets are well paved and the side walks have flat stone. In the centre of the Plaza there is a neat fountain, with a plaster basin. The houses are better built than any I have yet seen. Every house has its garden enclosed by high stone walls, filled with orange trees, pomegranates, grapes, and flowers. The quantities of beautiful trees scattered about the city, the domes and minarets, give it the appearance of fairy land—called upon Gen Worth to congratulate him upon his brilliant success and found him looking very well. A great deal of fruit was exposed for sale in the Plaza—the grapes were perfectly delicious.

In a few moments, attracted by the sound of that *everlasting Mexican bugle*, [whose first notes were given to us on the Colorado,] I discovered the Mexican troops were moving out. I wanted to see a great many pass. The Infantry were miserable looking devils, shod with sandals, but one regiment of Lancers were as fine a looking body of men as I have ever seen. Many women, some the wives of officers, followed, picturesquely wrapt up in their gay colored ponchos. The main piazza is still occupied by their troops, into which we have no access. Gen Ampudia left yesterday with two Divisions of the army, and the whole are getting off as fast as they can. I rode to Arista's Palace, which is directly under the hill upon which the Bishop's is situated—it is a long, low, white building, elegantly finished, but of no particular order of architecture—flat roof of course, ornamented by a succession of pilasters. Back of the house is a portion 20 feet wide and a garden that rivals oriental magnificence. Double walls of white masonry about 3 feet high filled in with earth, layed out in intricate figures, with fountains in the centre, roses and a thousand other plants apparently growing out of the walls, and also in the enclosed space—flower pots with various plants arranged around them, a bold stream of water running the length of a plaster race way, leads to a stone building house, covered with trellis work, over which the grape and other vines clamber; in the rear of this are beautiful groves of orange trees and pomegranates and a fine vegetable garden, imagine the whole tastefully laid out and kept in the neatest order, and you have some idea of one of the retreats of this Mexican nobob. It has been turned into hospital where our poor wounded fellows are lying.

After riding over the city and examining its excellent defence, my only astonishment is how they came to yield it. It is a perfect Gibraltar. At the Eastern extremity, where so many gallant fellows fell so fearfully, my greatest wonder is, how any of them escaped. Gen Worth conducted his movements with judgement and consummate skill, masking the soldiers in every move. His motto when starting was, "*I grade or a grave*." From the one he has escaped, the other he must certainly obtain.

LAW REPORTER, Nov 1846.

The present number of this valuable monthly contains much interesting and useful matter.—Its leading article is a report of a lecture pronounced in 1844, by Judge Story before the students of the Law School on the character of Chief Justice Parsons. The article is one of much interest, containing many incidents in the life of this eminent jurist not generally known. The number also contains many valuable cases from the U S Circuit and District Courts and several of the State and English Courts. Under the head of Intelligence and Miscellany is given an excellent article on Capital Punishment, which if we had room we should be glad to transfer to our columns as particularly appropriate in this community at the present time.

☞ Here is a bit of intelligence copied from the New Orleans Jeffersonian which portrays some of the horrors of American 'Slavery as it is.' Those who are advocating a course of government measures for the extension of slavery must feel peculiarly 'nice in reading and reflecting upon it.'—

"A number of citizens went on Wednesday evening to arrest fifteen or twenty runaway slaves, men and women, who were encamped in the swamp in the Faubug Washington, at the rear of the third municipality. When they came on the camp, the negroes were preparing supper, and when called upon to surrender ran off, upon which those in pursuit fired, killed a man and woman and wounded two women, the others escaped. A quantity of fire arms was found in the camp. The coroner held an inquest on the bodies. Verdict, "died of gun shot wounds."

Opinion on and Experience of the Editor of the Richmond News & Star Dec 8, 1845.

WISTAR'S BALSAM OF WILD CHERRY is constantly advertised in our columns. We feel bound to say that we put little faith generally in specifics and nostrums—much less in your cure-alls. But a fair trial of this medicine for six or seven years past—during which time the editor who writes this has at intervals suffered with acute asthma and he writing not so much for the benefit of the proprietors, as for that of those who are afflicted with that distressing disease, takes pleasure in saying that he has invariably found it beneficial to him, and in every case where it has been used promptly at the first indication of an attack, with entire and prompt relief. From having also observed it tried by others, he is of opinion that it is worthy of the confidence of the public.

Reason and Justice.—No. 8.

In previous numbers we have looked at the proposed law for the prevention of imposition in the sale of medicine, in nearly all its bearings. There is one more view to be taken, and then we shall have done. Let us look for a moment at the circumstances which call proprietary medicines into being. Independently of late discovery, the result of long and laborious research, the public at large are not a little interested in their success. Thousands are scattered over a wide extent of country, exposed to the hazardous influences of occupation and climate, to whom a valuable prepared medicine is a necessary of life. Far removed from professional aid, or accessible only at considerable time and cost, these medicines proffer their healing services when none other are to be had, and often where a professional man, as such, could never be sustained. In cities and villages, too, there are other thousands who live by toil, and are subject to the worse influences of a mere pent up life, to whom a good prepared medicine is not less essential.—Stinted in means, they can have their cases addressed and cured, when otherwise they would be likely to linger until entirely beyond remedy. The notorious fact that physicians are seldom called till severe sickness supervenes, is enough to show the inability of a good preventative remedy. If in this mere man who is subject to the greatest amount of bodily infirmity, and it is he on whom the operation of the above law will most heavily fall.

His only resource is to buy a quantity of Wright's Indian Vegetable Pills, or some other, in the same State, and while ill-mentioned they [illegible] will the evils of the imposition law be mitigated, until it is repealed.

Delaware Election.

The Delaware Election on the 10th has terminated in the election of all the Whig candidates for the Legislature in New Castle and Kent Counties, thus securing a Whig U S Senator for six years from the 4th of March next. This is a glorious result, as a mighty effort was made by the Locos to secure a U S Senator in place of Hon Thomas Clayton.—The Whigs have carried the Sheriffs, Coroners and all the County officers elected in New Castle and Kent Counties. They have also re-elected John W Houston, our present Whig Representative in Congress by a decided majority. In consequence of local causes the Locos have elected Tharp, Governor by a majority of about 150. On the whole the victory is a glorious one for the Whigs, as the Governor, having no control or vote on the laws, has but little power.

Michigan.

The Loco Focos have carried all three Congress Districts and a decided majority of the Legislature, though the returns show a Whig gain in the House and on the popular vote.—This ensures the gain of a Loco Foco U S Senator for six years from the 4th of March last, in place of Hon Wm Woodbridge. The Whigs might have carried the State but they thought they couldn't and didn't hardly try.

From the Army of Occupation.

We extract the following from the Galveston News of Friday evening, Oct 30 bulletin.

From Col Davis we learn that the Mexicans have totally evacuated the whole country from side of San Luis Potosi. This information has been derived from many sources that there is now no doubt of this fact. They left behind some forty dragoons to destroy fortifications that have been constructed at Los Muertos, a naturally strong and difficult pass on the road to Saltillo and about five or six miles beyond the Rinconada. They have also distributed Saltillo destroying whatever might be of use to our army, and which they could not take away. That there show nothing left for Gen Taylor to conquer but the barren region of rugged mountains and thirsty plains, affording neither water nor provisions for the subsistence of man or beast, over a distance of two or three hundred miles to San Luis Potosi. If, as has been said, Gen Taylor has orders to march upon San Luis Potosi, so soon as he can that city by the end of November, the question arises how he is to traverse such a country as we will have to do by a forced march at the rate of 15 or 20 miles per day.

The only water on this route is in the Mexican tanks, which will doubtless be all broken up as the enemy retires. To carry water sufficient to save his army and teams from suffering would probably require more horses, mules and oxen than are now in the army, all of which are required for the transportation of the necessary stores and munitions.

In making this retreat, the enemy have doubtless adopted a wise policy, leaving behind them a far more formidable enemy for Gen Taylor to encounter, (viz this march) than he could ever find in their own arms and fortified towns.

This policy has doubtless been dictated by the sagacity of Santa Anna. It is stated on good authority that he had sent orders to Ampudia to evacuate Monterey and all other places this side of the mountains but that those orders were not received till after the battle.

After leaving the troops necessary to garrison Monterey Saltillo and other towns Gen Taylor will only have an army of about 5000 men, with which to penetrate into the heart of the enemy's country and far beyond the reach of any reserve upon which he might fall back for support, in case of necessity. Such we believe is a correct account of the present position and prospects of our army as derived from good authority. Gen Ampudia has been superseded in command but the name of his successor is not remembered.

☞ The Union states that Gen Scott has issued orders for the release of Gen La Vega and his associates he having been exchanged for Capt Carpender and crew of the Truxton.

OBITUARY.—Mrs Adaline M, wife of Thomas Clarke, jr, died in Newport, Me, Oct. 14th, aged 21 years.

Mrs Clarke was left an orphan in early childhood, but her natural disposition and gentle deportment won for her a home in the hearts of all who formed her acquaintance. She made a public profession of religion about five years since, and united with the Christian Church in Newport. Consumption gradually wasted the energies of life, and her sufferings were severe and protracted—yet she uttered no murmuring word, no sigh of impatience escaped her lips, even when anguish was written in every feature. The writer had an opportunity of conversing with her a short time before her death, she was ready to be offered up, and rejoiced that the time of her departure was near. When Death's dark cloud hung over her, and Jordan's swelling flood rolled in view, she saw the "Bow of promise," and,

"Fearless, launched away."

She had been married but about five months, and her afflicted companion deeply feels his bereavement. May he, with that extended circle of mourning friends, remember that though

"Upon the unconscious breast,
We, weeping, placed the sod,
The soul had entered into rest
And found a home with God."

May the young, who mourn the loss of her society, emulate her piety and Christian virtues.—*Com.*

TIMBEY'S PATENT CAST-IRON
Water-Wheels.

Notice to Mill Owners.

THE undersigned having purchased of Theodore Timbey of New York the original inventor the Patent Right of the above celebrated Wheels for the State of Maine, now offers them for sale and confidently recommends them as possessing more advantages than any other Wheels for Saw Mills, which are offered for sale in this State Be sides its great power and speed, and its capacity of running under very light bounds of water and not being effected by back water it has but two vents for each Wheel which will allow all drift stuff which is liable to get into the flume to escape without filling them up

It is now acknowledged by the most experienced and skilful mill-wrights and millmen that these Wheels excel for Saw Mills any other Wheel known, and be refers to those which are now in operation in this vicinity and more particularly to those now running in the mills in Upper Stillwater side by side with the *celebrated* Stearn's Wheels, to prove that they surpass any other Wheels now in operation in this State

These Wheels are now manufactured by Messrs HINCKLEY & EGERY of this city, who are authorised to dispose of the same with the Patent Right thereof, on the most reasonable terms

Instruction in French.

MADEMOISELLE MYHAN respectfully announces to the Ladies and Gentlemen of Bangor that she is prepared to receive applications for her services as teacher of the French language at Mr VALENTINE'S, on Hammond street

Mlle M flatters herself that a continued residence for some years at the celebrated establishment of the *Sacre Coeur* at Paris where no other language than French was used either in hours of study or relaxation will be a sufficient guarantee for her of the possession of *a pure Parisian accent*

For her knowledge of the language skill in teaching and success with pupils she invites an inspection of her references in Boston &c

As Mlle M has under consideration several eligible applications from other quarters she would be particularly obliged to those who may desire to avail themselves of her service in Bangor if they would apply as early as possible She would be glad to be enabled to decide by the 10th proximo whether it is practicable for her to make permanent arrangements at Bangor

TESTIMONY!
Bangor Oct 5th, 1846

MESSRS HALL & YOUNG—Gentlemen

A few weeks since I called at your shop and bought one bottle of Dr Jackson's Pile Embrocation As I then bought with considerable hesitation not knowing but what it was more of a humbug than any thing else I deem it my duty, as one dreadful sufferer relieved and finally cured by its use to inform you in a public manner of my entire approbation of the medicine and sincerely hope that others may be induced to purchase it under similar circumstances A good application for the Piles has long been a desideratum and I have never met with any thing so remarkable in its curative properties, as the above medicine procured of you

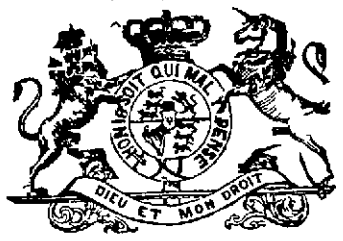
CONSUMPTION CURED!

BUCHAN'S ENGLISH BALSAM OF LIFE.



THE

GREAT ENGLISH REMEDY

For Colds, Coughs, Asthma, and other Diseases of the CHEST and LUNGS.

BUCHAN'S HUNGARIAN BALSAM, the Great English Remedy for Pectoral and Pulmonary diseases, still stands unrivalled and unsurpassed as the most elegant agreeable and effectual curative of those formidable complaints, now known to the civilized world

Three years of trial in the United States, during which time it has been distributed from Maine to Florida, has only served to establish its pre eminent merit in all parts of the country, as the great and

ONLY RELIABLE REMEDY

in the worst case of Pulmonary disease, and the least and most agreeable curative of all the slight forms of cough, cough and inflammation, that can possibly be used

SPITTING OF BLOOD! This frightful symptom of approaching Consumption is speedily checked and prevented by the use of Buchan's Hungarian Balsam, which heals the affected membrane, removes the incipient tubercles, and restores those vital organs, the Lungs to a sound and healthy condition

REMEMBER THIS Spitting of Blood always arises from a tendency to Pulmonary disease and if not checked, at the outset, will sooner or later determine in death A person who raises blood once will raise blood again, unless a proper curative is immediately employed!

PAIN IN THE SIDE! This disease is symptom of Consumption arises from inflammation of the Lungs or the Membrane called the Pleura, or from Bronchial affection of the air passages In either case it is a very dangerous indication of disease It prevents full and free breathing and wears away the natural strength of the system The cause of this symptom should be removed at once, and nothing can possibly effect that object so speedily and happily as the Great English Remedy, discovered by Dr Buchan, which is entirely vegetable in its ingredients, and perfectly harmless to all its qualities

LIVER COMPLAINT In cases of Consumption the Liver is always more or less affected, and also the Spleen, Pleura, and small Intestines On dissecting Consumptive patients, Tubercles are often found in all these organs, particularly upon the Liver, which also becomes fatty, oily and swelled. The effect of the Hungarian Balsam in diseases of the Liver, especially Gout is of an obvious nature, is direct and powerful *Simple diseases of the Liver, unattended by Consumption is speedily cured by its use*

WINTER COUGH The harsh, dry, hacking winter cough which *afflicts old people*, and invalids in a low state of health is happily alleviated by the *Hungarian Balsam*

It warms, moistens, and stimulates the whole breathing apparatus, removes all morbid mucus and other foul matter, purifies and animates the blood, improves the secretive power of the Liver, Spleen, and other large glands, and the digestive organs, and imparts new life to the wan and emaciated system.

BRONCHITIS Bronchitis, Difficulty of Breathing Harsh Cough, a slimy expectoration, with all other symptoms caused by an affection of the air tubes leading from the throat to the lungs, are directly and specifically cured by the use of the admirable remedy invented by *Dr Buchan*.

This is a very painful, wearing and injurious complaint, and always has a powerful tendency to inflame and soften the Lungs, and thereby to induce the worst form of Pulmonary disease Be warned in time, ye afflicted! and employ this valuable remedy

TUBERCLES ON THE LUNGS! The Hungarian Balsam is the only popular remedy which has any power to dissolve, remove, and cure Tubercles on the Lungs Incredible as this is generally esteemed, we have the most abundant and conclusive evidence to sustain the assertion that such is its direct and immediate effect in all cases where there is no natural organic defect In fact, so confident is the American Agent of its power to cure the worst form of this disease, that he prefers, (as he has frequently stated) that it should be used by invalids who have been *PRONOUNCED INCURABLE* by the most eminent physicians rather than by persons affected with some slighter form of disease—in order that its triumphs might be more apparent He boldly declares that it will cure Tuberculous disease, and confidently solicits a trial in the *worst of cases*

EXPECTORATION! Free Expectoration is the most important object to be attained in all attempts to cure diseases of the Chest and Lungs The Cough, which is so distressing, is simply the result of a desire to expectorate, and as long as foul matter exists in the air passage, it will continue to irritate the membrane and provoke a cough. Coughing is an attempt to throw off this matter, and expectoration gives great relief Inability to expectorate in the latter stages of Consumption is the cause of death

The Hungarian Balsam is a *great Expectorant*—It dissolves the morbid and diseased matter in the air passage, changes it from a thick, glutinous substance, to a thin harmless fluid, and throws it off with the greatest possible ease and comfort to the patient. There is no better medicine in the world, if its expectorant quality alone be considered

SPASMODIC ASTHMA Simple or Spasmodic Asthma, has no better remedy than the Hungarian Balsam. This painful and destructive affection which resists almost every thing else, yields to the all powerful influence of this great remedy, as readily as any other form of Pectoral disease

CONSUMPTION! Consumption has been graphically described as a! *Shrinking of one's self* The Hungarian Balsam by its cleansing warming, softening and animating power, produces, not shrinking but *expansion!*

Before its delightful influence, all chills, fever, night sweats, costiveness, blueness of the nails a hot flushed skin, an uncertain strength, emaciation and decline—disappear, like the poisonous dews of night before the glorious morning sun! This is no delusion, but demonstrable fact, sustained by incontestible proof, from all parts of the country

BE WISE TO-DAY! Delay in any case of Consumptive tendency, is emphatically Death, under all ordinary treatment. The Hungarian Balsam is a great ANTIDOTE, as well as CURATIVE. If you have any symptoms above described, be advised in time

Sold in large bottles at only one dollar per bottle

DR. UPHAM'S Vegetable Internal Remedy FOR THE PILES!

A Cure for Life Secured.

For the cure of Piles, Inflammation of the Liver and Spleen Inflammation, Soreness and Ulceration of the Stomach, Bowels, Kidneys and Bladder Inflammatory and Mercurial Rheumatism, Impurity of Blood, Weakness and Irritation of the Spine and for the relief of Married Ladies

THE VEGETABLE PILE ELECTUARY—Invented by Dr A Upham, a distinguished physician of New York city is the only really successful remedy for that dangerous and distressing complaint, the Piles, ever offered to the American public

Mark this It is an INTERNAL REMEDY—not an external application and will cure any case of Piles, either Bleeding or Blind, Internal or External and probably the only thing that will There is no mistake about it It is a positive cure, speedy and permanent It is also a convenient medicine to take and improves the general health in a remarkable manner

Each box contains twelve doses, at $1 3 cts per dose It is very mild in its operation and may be taken in cases of the most acute inflammation without danger All external applications are in the highest degree disagreeable inconvenient and offensive, and from the very nature of the disease, temporary in their effects This Medicine reaches the disease at its source, and removing the cause renders the cure *certain and permanent*

INFLAMMATORY DISEASES—Although the *Electuary* was originally prepared for the cure of PILES, yet it has proved itself to be a medicine far superior to all others, in all diseases of an Inflammatory character, with a determination of blood to any particular part or organ In Inflammation and Congestion of the Liver and Spleen, Inflammation, Soreness and Ulceration of the Stomach Bowels Kidneys, and Bladder, in Inflammatory and Mercurial Rheumatism, it is the best Medicine ever discovered

IMPURITIES OF THE BLOOD—For all Impurities of the blood arising from the imprudent use of mercury or other causes, for all Diseases of the Skin and Scrofulous Affections, in all cases where the Blood is powerfully determined to the Head, producing dizziness and distress Dr Upham's Electuary is entirely unrivalled

TO MARRIED LADIES—Married Ladies are almost invariably subject to that painful and dangerous disease, the PILES with consequent Inflammation of the stomach, bowels and spine, weakness of the back, flow of blood to the head &c The Electuary is perfectly safe for Pregnant Ladies and the most useful Cathartic that can possibly be used as it will not only remove the Piles and all inflammatory diseases *without pain or irritation* but will ensure an easy time and safe delivery and a sound constitution in the offspring

CURE FOR THE PILES GUARANTIED—The Electuary contains no mineral mercurial or no Aloes Colocynth Gamboge or other powerful and irritating Purgative Neither is it dangerous to be taken in fluence no change in diet is necessary It taken according to the directions *A cure for Life is Guaranteed*

LORRAINE'S PILLS.

THESE Pills are now acknowledged by thousands that used them daily, to be the only medicine that fairly takes the BANNER from all others. They cause no pain or uneasiness of any kind in their operation, and require neither change of diet nor care of any kind This medicine has actually done wonders It has established a reputation unrivalled, on its own merits, without being puffed up continually in the papers

The attention of the reader is respectfully called to the following highly respectable notices of this invaluable and incomparable medicine—and it will be seen its achievements are most extraordinary as daily experience speaks more and more remarkable cures where other medicines had entirely failed of giving even relief

COUGHS, COLDS AND CONSUMPTION

A gentleman of Boston, was so much affected with hoarseness that he could not speak loud, took Lorraine's Pills They had an excellent effect, and rendered his voice soft clear, and distinct in one night a time

PILES! PILES!! PILLS!!! The only sure remedy for the Piles is

DR LORRAINE'S PILLS

Never in one single instance has failed to cure that worst of all diseases Certificates from the most respectable people of Boston, can be seen at his office

VERY REMARKABLE CASES!

John Bruce of Providence had entirely lost the sight of one eye, and nearly so the other from inflammation, was entirely cured and his eye sight perfectly restored by a steady use of Lorraine's Pills for one month The certificate is in the hands of the General Agent, signed by three respectable witnesses

Mr J Greenwood has been entirely cured of a very large sore on his leg by the use of only two boxes of Lorraine's Pills

SHE WAS POINTED AT!

She was pointed at in Washington street Boston saying that is the lady that was so weak and sick and given over to *die!* and was *cured* even to admiration, by Lorraine's Pills! in a month that when she goes to church or to walk in the street she is actually pointed at

THAT IS SHE

DANCED IN FANEUIL HALL!

A lady in November 1844 commenced the use of Lorraine's Pills with all the frightful symptoms of death upon her, visible in the ghostly countenance, accompanied with Despondency Sighing Fainting, Convulsions, &c yet by the powerful virtues of only one of Lorraine's Pills daily, in the space of six weeks she acquired such a stomach such a constitution! that she Danced in the Faneuil Hall in Boston

CAN YOU EAT OYSTERS?

One doctor asks his patients can you eat oysters, &c, another can you drink milk &c Now we tell you if you take but one of Lorraine's Pills daily you can eat anything and acquire a constitution, fit for all occasions and comforts and pleasures

Mrs ——, of Salem, was afflicted with a cancerous humor that settled in her breast took Lorraine's Pills and was entirely cured

Mrs ——, of Boston, was dreadfully afflicted with sore Nipples on account of a humor of the blood, took one of Lorraine's Pills every night, with a view to cleanse her blood, which entirely cured her

Dyspepsia—Mrs Susan Bond Pearl street New York was effectually cured of Dyspepsia by taking only one of Lorraine's Pillson going to bed, for eight days

Nervous or Sick Headache—Lady Smith 129 Friend st N Y was entirely cured of a severe nervous or sick headache by taking three of Lorraine's Pills.

Palpitation of the Heart—Miss E West Greenwich Place, N York, was entirely cured of a violent Palpitation of the Heart by a steady use of one of Lorraine's Pills every night for one week

Opinion of a Regular Physician.

Exeter Me, Sept 30 1845

This certifies that I have recommended the use of Wistar's Balsam of Wild Cherry for diseases of the Lungs for two years past and many bottles in my knowledge have been used by my patients, all with benefit and results In two cases where it was though confirmed consumption had taken place the Wild Cherry effected a cure

NO QUACKERY NO DECEPTION!

All published statements of cures performed by this medicine are in every respect TRUE

BEWARE OF COUNTERFEITS AND IMITATIONS The unparalleled and astonishing efficacy of Dr Wistar's Balsam of Wild Cherry in all the diseases for which it is recommended, curing many cases after the skill of the best physicians was unavailing, has effected a large and increasing demand for it This fact has caused several unprincipled counterfeiters and imitators to palm off spurious mixtures, of similar name and appearance, for the genuine B Balsam

Be careful and get the genuine DR WISTAR'S BALSAM OF WILD CHERRY None genuine unless signed by I BUTTS Address all orders to SETH W FOWLE Boston, Mass

READ THIS! FOR MAN AND BEAST.

DR KITTREDGE'S Green Nerve and Bone Ointment discovered and used by the late Dr Kittredge of Walpole, N H with the most unparalleled success, is now prepared by Geo C Goodwin, Druggist, 76 Union street Boston, from the Original Receipt and is confidently recommended to the public for the cure of the following diseases incident to the human frame

Rheumatism, Lameness, Sprains, Gout Salt Rheum, Scrofula, Piles, Humors, Contractions, and all external complaints It is also equally celebrated in the cure of the following external diseases of Horses and Cattle—Sprains, Galls, Cuts, Scratches, Bruises, Wind Bone, Parrot, Cough, Stiff Joint, Film in the Eye, &c.

Numerous certificates might be produced attesting to the inestimable virtues, and the public may rest assured that this ointment is superior to any remedy ever invented for the cure of the above named diseases, and unlike too many highly extolled medicines

It is no humbug in proof of which the proprietor will himself, and hereby authorizes his Agents in all cases to refund the money, where it does not give the most unbounded satisfaction

The Sugar-Coated Pills.

A NEW SARSAPARILLA PREPARATION.

To cure Diseases, Purify the Blood! To avoid them, keep it pure!!

That PREDISPOSITION which exposes the human frame to the infection and virulence of every class of disorders, proceeds directly or indirectly from a morbid state of the system caused by

IMPURE BLOOD.

HALSEY'S SUGAR COATED MAGIC LIFE PILLS The originator of the only true and genuine Sugar coated Pills, most respectfully informs the enlightened public, that this new and elegant preparation can be obtained only from advertised agents and at the proprietor's establishment No 323 Broadway, N York—Price 25 cents a single box 5 boxes for one dollar

G W LADD Agent for Bangor

Among the numerous remedies which stand reputable on the basis of an ancient name are none perhaps which have acquired so great celebrity, and extensive use in so short a time as this invaluable article—They have gained their high reputation, alone by their good works Those who once try them always use them again They are grateful to the stomach,—they improve the functions of secretion nutrition and circulation They restore digestion and appetite and create a natural warmth inwardly, which glows through the whole system, giving at greater vitality and animation The experience of thousands attest to their good effects After using them for a short time the hitherto wretched invalid finds that all disagreeable and unhealthy humors have forsaken his system His digestive organs perform their proper functions, his blood regains its wonted purity the oppressive sense of weakness and pain departs, and his body becomes endowed with renewed strength and vigor—while the mind resumes its original vivacity and clearness Such are the results produced by Halsey's Sugar coated Pills the mildest yet most effectual preparation of the class in use

In BILIOUS complaints Costiveness, Indigestion, Dyspepsy, and all other disorders of the stomach they produce the most happy results For Sores, Boils Saltrheum, Tetter, Erysipelas, Eruptions of the Skin, Scrofulous complaints and many other like diseases arising from IMPURE BLOOD they have become highly celebrated Hundreds of certificates have been received from individuals who after having taken them for a few weeks, (according to the directions which accompany the box) were cured of the most afflicting cases of *scrofulous affections* They give *Good Blood for Bad* Bottles of the boasted Sarsaparillas, contain less of the true virtues of that valuable plant and are less effectual than a single box of these extraordinary Pills In Colds Coughs Influenza, Sore Throat Headache Giddiness &c, they are recommended with entire confidence the relief in these cases is quick and permanent For Fever and Ague, Fevers Asthma Piles Loss of Appetite Dropsy, Jaundice Worms, Loosness General Debility, and many of the various other diseases to which the human system is liable they have proved an infallible remedy Their action on the bowels is of the mildest character, even *over doses* never cause griping or uneasiness yet they are searching and efficient It is impossible by words to give an adequate idea of the great and good effects these pills produce and their superiority over every other remedy of a similar class, a trial only will explain the wide difference The unhappy invalid after having *tested* but a *single box* of them will with joy for the unexampled change wrought in his health bear testimony to their uncommon virtues

N B The *coating of sugar* adds nothing to the great virtues of the Magic Life Pills, it is their uncommon powers in promoting health on which all their merits stand, notwithstanding this they are the original sugar coated pills The proprietor made this valuable improvement to preserve their curative virtues entire as well as to render them pleasant to the taste, yet individuals of no integrity have counterfeited other pills coated them, and through the base and silly pretension to a patent are distributing them about the country, deceiving the public by disposing of them unjustly through the already acquired reputation and popularity of the genuine *Halsey's Sugar coated Pills* In order to get the true and original sugar coated pills, see that the engraved signature (G W Halsey) is on the label of each box and buy only of advertised agents

Dr. S. O Richardson's CONCENTRATED Sherry Wine Bitters.

THE Proprietor of this Medicine offers to the public the result of an extensive practice and a thorough investigation of the laws which govern the human system

It cannot be denied by those who have become acquainted with the singular virtues of these Bitters that they possess a pre eminence over all others now in use, for the diseases which they profess to cure

It is well known a fact that most diseases arise from a derangement in the Stomach and Bowels, in youthful adult and declining life

The extensive sympathies which subsist between these and every other part of the living body are the foundation of nervous diseases of all kinds, Irregular Appetite, Languor Drowsiness Wandering Pains Headache Lowness of Spirits &c

And these in their turn give birth to Dyspepsia, Palpitation of the Heart, Shortness of Breath Jaundice Piles Fevers, Inflammatory Humors, Coughs and a host of diseases which embitter life and poison all sources of enjoyment

The distinguished character of these Bitters is most striking, their operation being more or less powerful according to the violence of the disease When used in appropriate quantity, in cases of slight derangement of the Stomache and Bowels caused by costiveness or a slight bilious difficulty and the like, whose nature needs assistance to prevent more serious consequences, they will be scarcely felt

On the contrary, in obstinate cases they frequently operate more powerfully, causing two or three evacuations daily, until the circulating fluid becomes purified This accomplished they act on the system in connection with our food each receiving mutual assistance until the constitution is restored to a state of health and renewed vigor

For sale wholesale and retail at the Doctor's Office, 15 Hanover street Boston, and by Agents, Merchants, Druggists and Apothecaries in every town throughout the New England States. Price 75 cts a bottle, 50 cts a paper
